# S.S.C.C.-18 (GS1-128) - GS1 Shipping Container Code in the GS1-128 format. See UCC/ANSI/UCC6 for specifications

1. Cust Spec. # - Assigned by Symbology for special or unique bar codes designed for you.
2. Bearer Bar Width - Generally .19" in width for direct printing on corrugated.
3. Narrow Bar - "X" Dimension - The nominal dimension of the narrow bars/spaces in a bar code symbol. Specification range: .0148" - .040."
4. Bar Height - Bars/spaces: 1.25."
5. Bar Width Adjustment - Loss/gain adjustment of the nominal bar width dimension on film masters or printing plates to compensate for print gain which occurs in wet ink printing processes.
6. Package Indicator -1 digit.
7. Country Flag/Number System - 2 digits (US or Canada 00, 03, 06, or 07).
8. Manufacturer Number - 5 digit number assigned to product manufacturer, not including the leading number system character.
9. Item Number - This 9-digit number is assigned by the individual manufacturer.
10. Check Digit - This digit (from 0-9) is the result of a mathematical calculation using the previous 17 digits. If you do not know this number leave it blank. We will calculate.
11. Description - Used to identify the individual codes, for user reference only.
